# THE GOALKEEPING SPECIALIST FOR 50 YEARS

50

YEARS OF  
GOALKEEPING

From the very beginning, Reusch set out to make the best, high-quality goalkeeper gloves. Decades after our debut in the most popular game in the world, we celebrate more than 50 Years in Goalkeeping at Reusch. In the dynamic and demanding world of sports, reaching this milestone is a remarkable achievement. Over time, we have adapted to changing technologies, overcome challenges, given our best and stayed true to our values.

Since the legendary first ever Reusch World Cup victory in Germany 1974, the world's best goalkeepers in Reusch gloves have brought home a total of **6 World Championships, 6 European Championships, 6 Copa América and 5 UEFA Champions League wins** among many more national and international trophies.

Today, the gloves crafted by Reusch are the trusted companions of many professional and amateur goalkeepers all around the world. This is the proof that with passion, perseverance and our commitment to make top-quality products for keepers all over the world, we can overcome any challenge and achieve remarkable milestones.

**BE THE ONE.**

# THE BEST GOALKEEPERS, THE BEST GLOVES, WORLDWIDE.

# BE THE ONE ON THE PITCH!

## 1 AdaptiveFlex Closure System

A two-layer construction consisting of a first elastic bandage around the wrist and a second layer resulting from an extension of the backhand fabric all the way to the opening. To provide flexibility, the upper layer is strategically cut on the back and the front of the wrist. This system stabilizes and supports the wrist while enhancing freedom of movement.

## 2 PerformSkin Fabric

This supple and flexible yet structured material offers increased breathability and volume for best wearing comfort.

## 3 Latex Punch Zone

Light and durable punching zone made of latex material, resulting in a very robust and at the same time highly flexible backhand.

## 4 Ventilation Channels

Strategically placed small holes in the latex gussets guarantee constant ventilation and cool hands.

## 5 Pre-Shaped Construction

The anatomical shape of the glove and the slightly spread fingers enhance the glove's wearing comfort and support a natural catching position.

## 6 Elastic Strap

Premium strap consisting of two pieces that are connected by an elastic textile insert. The special shape and material-mix guarantee a highly precise fastening.

## 7 Extended Grip Zone

The expansion of the palm latex enlarges the latex-to-ball contact zone for optimized grip.

## 8 Double Thumb Wrap

The palm latex wraps around the upper and lower side of the thumb to enlarge the grip area and creates an ergonomic shape.

## 9 3D Thumb Crotch

This rolled crotch construction between thumb and index finger avoids bothering seams and supports an ergonomic fit.

## 10 ThumbFlex

A cut in the palm latex between thumb and index finger optimizes the flexibility of the thumb and the ergonomic shape of the glove.

## 11 Side Wrap

A wrapped construction of the palm latex on the outer side of the hand provides a precise fit and a bigger catching area.

## 1 AdaptiveFlex Closure System

Inspired by our patent pending closure system, we optimized the AdaptiveFlex for our second-skin fit construction. This two-layer system features an elastic bandage for unrestricted flexibility and an integrated strap on top wrapping around the wrist and providing reliable stability and fixation.

## 2 Hybrid Negative Cut

Negatively stitched glove construction with wrapped latex around the index finger and the pinkie for best ball control.

## 6 Extended Grip Zone

The expansion of the palm latex enlarges the latex-to-ball contact zone for optimized grip.

## 3 Second Skin Fit

Our lightweight, highly flexible, breathable and snug-fitting glove construction provides ultimate agility and thus maximum control.

## 7 Side Wrap

A slightly wrapped construction of the palm latex on the outer side of the hand provides a snug fit and a bigger catching area.

## 4 PerformSkin Fabric

This supple and flexible yet structured material offers increased breathability and volume for best wearing comfort.

## 8 Integrated Strap

The special construction of the glove's upper material around the wrist offers a secure fixation and boasts a clean look.

## 5 Double Thumb Wrap

The palm latex wraps around the upper and lower side of the thumb to enlarge the grip area and create an ergonomic shape.

## 9 Pull Loop

A slim textile loop on the inner side of the cuff ensures an easy entry into the glove.

# Attrakt Fusion Carbon® 3D

<< Introducing the first-ever goalkeeper glove featuring a 3D-printed backhand application.

This one-of-a-kind product has been realized in close collaboration with our premium manufacturing partner and Carbon® 3D, one of the market's leading 3D-printing technology companies.

The 3D-printed grid structure delivers best energy rebound and return even when fiery shots come in. While maintaining superior lightness and elasticity, the glove boasts an unprecedented design, paving the way for the glove development of the future.>>

# Cuts

## Hybrid Negative Cut

Negatively stitched glove construction with wrapped latex around the index finger and the pinkie for best ball control.

## Evolution Cut

The latex is seamlessly rolled around the fingertips for a precise fit, best ball control and maximized latex-to-ball contact area. An outer-seam construction in the lower finger parts offers an ergonomic fit, breathability, softness and flexibility.

## Evolution Negative Cut

The latex is rolled around the fingertips for a tight fit, best ball control and maximized contact area. An inner-seam construction in the lower finger parts offers a tight, soft, flexible and ergonomic fit.

## Negative Cut

The backhand and palm of the glove are negatively stitched with gussets and sidewalls. Besides offering a smooth look, this specific design guarantees a snug fit and enhances ball control, delivering a natural feel to the keeper's hand.

## Expanse Cut

Outer seams enlarge the palm surface of this flat cut and so increase the latex-to-ball contact area.

# Performance Level

## World-Class

World-Class palm foams refer to special and unique foams combining our best latex in terms of grip with additional and special features to achieve exceptional performances.

## Pro

Pro foams denote highly performing palm foams that ensure professional grip.

## Advanced

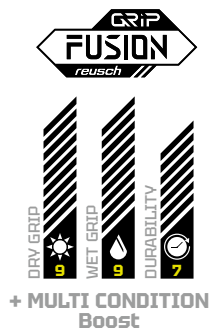

Advanced foams guarantee a very good grip suitable for competitive usage.

## Intermediate

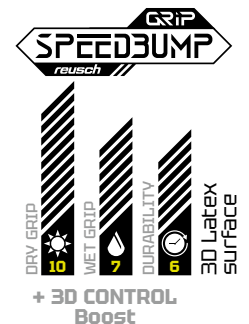

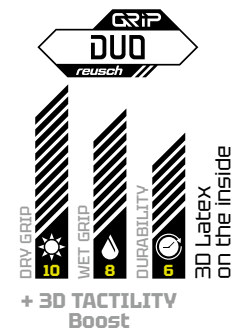

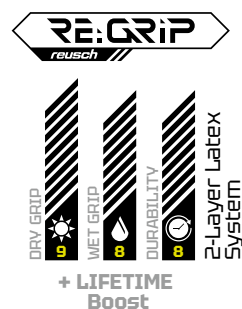

Intermediate palm foams deliver a very reliable grip that stands up to intermediate levels.

## Recreational

Foams developed for recreational use that deliver very good performances in terms of durability.

PROTECTION!**

## ORTHO-TEC

Based on five individually removable, light-weight and highly bendable protection spines, the Reusch exclusive Ortho-Tec™ system adapts to the natural movements of the fingers and blocks them before being pushed backwards into the injury zone.

## FINGER SUPPORT

This reliable finger protection system based on five protection spines reduces the risk of hyperextension while keeping the glove soft and flexible.

# RE:GRIP

**LIFETIME BOOST**

Thanks to an **innovative 2-Layer Latex System**, the Reusch-exclusive Re:Grip technology combines two different latex qualities to guarantee ultimate grip without compromising on durability. The top layer is based on a latex composition, that is beloved by professional goalkeepers because it ensures world-class grip. The bottom layer features our highly abrasion resistant Infinity latex. Once the first layer is consumed, the durable layer of Infinity latex enables the goalkeeper to keep using the glove during matches or training sessions.

# 7 steps to treat goalkeeper gloves right

As highly technological and delicate products, goalkeeper gloves deserve and need special attention. Following some basic rules when choosing, playing, cleaning and storing the gloves will help maximizing their performance and durability.

## 01. Choose the right gloves for your needs

- Take the gloves that are made for the type of surface you regularly play on and the weather conditions you will face the most.
- Select the palm foam that best corresponds to your needs. Even though all Reusch palms are made of high-quality materials, they differ in terms of grip, cushioning and durability, depending on the material composition of the foam.
- Check the additional features of the glove that can help you improving your performance.
- Decide whether you want finger protection or not.
- Choose your preferred cut.
- Pick the right size.

## 02. Wash before first use

- Never forget about this! In order to eliminate any remaining soap necessarily used in the production process, the gloves must be cleaned with warm water before first using them.
- Only after this procedure the gloves attain their fullest grip properties.

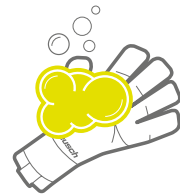

## 03. Moisten before playing

- Rinse Aqua gloves with warm water (preferably between 35–40°C) one to two hours before using them, in order to activate the Hydrograins™ inside the palm foam.
- Moisten all types of goalkeeper gloves before playing.
- Keep the gloves in slightly wet condition during use.

## 04. Clean after playing

- Wash the gloves with warm water (around 35°C) after playing in order to eliminate dirt that decreases the grip properties of the gloves.
- Do not use aggressive solvents or harsh cleaners.
- Wash by hand and not in the washing machine.
- For a perfectly clean glove, additionally use special glove wash.

## 05. Dry at room temperature

- Let the gloves dry at room temperature.
- Keep away from radiators or other sources of direct heat, which would deteriorate the latex.

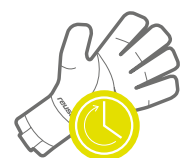

## 06. Store in appropriate location

- Do not expose gloves to UV radiation like intense sunlight or light from fluorescent tubes, as this can impair the grip and durability of the latex layer.
- Store the gloves in a cool, dark and dry place.
- Goalie bags are the perfect storage items for your gloves.

## 07. Use until completely worn-out

- Very soft palm foams can show first signs of usage already after a small period of use.
- The performance and the grip properties of the glove remain untouched until the palm is totally worn out.

# Get your access from your reusch contact!

## Our service B2B portal is an online shop for business customers.

Unlike telephone, e-mail or fax orders, the platform immediately offers an availability overview. The system is connected to our ERP system and is updated every 15 minutes. Any dealer with an active access can order around the clock.

### WHY SHOULD YOU USE OUR SERVICE PORTAL?

- Order at any time of day or night, regardless of your or our office hours.
- Simple overview of the available sizes and colours. Modern, simple and fast processing - no waiting times on the phone.
- Print option and electronic archiving of all orders.

### GET YOUR ACCESS NOW:

Either contact your field representative ([service@reusch.com](mailto:service@reusch.com)), or request access directly through <https://b2b.reusch.com>. You will receive your access data within 24 hours.

<https://b2b.reusch.com>

## VIRTUAL SHOWROOM

With the developed Reusch Virtual Showroom we provide our partners with maximum content and all needed assets of our goalkeeping collection GK 25. The platform offers details, pictures of each single article as well as product and information videos, key campaign visuals and a download section including presentations, and simply all relevant documents for clients, sales force and business partners.
