2-LAYER LATEX SYSTEM X ULTIMATE & EXTRA DURABLE GRIP!

REUSCH GRIP FUSION

This palm foam steps up the game in terms of grip and durability. Speckled latex injections of our black Infinity and blue Aqua foam boost the all-around performance. An adhesive finish adds a glue-like touch to this world-class latex composition.

REUSCH GRIP GOLD X

Our world-class keepers' favourite palm foam. Adhesive particles were added to this exclusive Reusch Latex formula. The result is a super soft, highly tacky, glue-like palm foam with world-class grip properties in all weather conditions.

REUSCH RE:GRIP

Thanks to an innovative 2-layer latex system, the new Re:Grip technology combines two different latex qualities to guarantee ultimate grip while boosting the palm's lifetime. Once the top world-class latex is consumed, the extremely durable layer of Infinity latex underneath enables the goalkeeper to keep using the glove during training sessions for a longer time.

REUSCH GRIP AQUA

Wet Condition Boost: By converting our Reusch Grip Gold latex into a more open-pored, water-absorbing structure and refining it with the exclusive Hydrograin™ particles, we created our outstanding Aqua latex. It ensures world-class grip properties, especially in wet conditions.

REUSCH GRIP SPEEDBUMP

This external three-dimensional technology guarantees a glue-like touch, maximum all-weather grip, and reliable abrasion resistance. Compared to plain latex surfaces, the 3D shape of the SpeedBump™ spikes boosts friction between the palm and the ball for best grip and control.

REUSCH GRIP DUO

This technology of three-dimensional latex dots added to the inner side of the palm foam in direct contact with the hand boosts hand-to-glove traction. This results in increased tactility and ball control, while preventing any slipping of the hand inside the glove.

WORLD-CLASS

World-Class palm foams refer to special and unique foams combining our best latex in terms of grip with additional and special features to achieve unique and exceptional performances.

SPECIAL DEMANDS
REQUIRE UNIQUE
SOLUTIONS.

Whether you are a seasoned pro or a budding amateur, our palm foams will help elevate your game to the next level.

With meticulous attention to detail, each foam has been crafted to perfectly balance various components, additives, and finishing, resulting in an unmatched performance for keepers.

REUSCH GRIP GOLD

Our pro match foam is based on the exclusive Reusch Grip latex formula and offers a professional grip in dry and wet conditions as well as reliable durability. The Gold quality includes the highest percentage of natural latex, boosting the overall grip properties for uncompromising performances.

REUSCH GRIP SILVER

High-volume palm foam for advanced grip and extra cushioning. This latex offers very good grip properties and an extraordinarily soft touch. Our Silver latex provides noticeably more cushioning, stability, and comfort.

REUSCH GRIP

This Reusch-exclusive latex guarantees reliable grip thanks to its high proportion of natural latex. This latex builds the base for the entire Reusch Grip palm foam series.

REUSCH GRIP SOLID

Reusch Grip Solid synthetic palm foam with reliable durability is a good choice for prospective goalkeepers and beginners.

REUSCH GRIP INFINITY

Reusch Grip Infinity latex provides the perfect combination of durability and grip for good performances on artificial grass. Its special high-density structure adds a significant durability boost in order to achieve an exceptionally high level of abrasion resistance.

REUSCH GRIP RESIST

Based on the developed Reusch Grip latex and characterized by a rough surface, the Resist palm foam is optimised for use on highly abrasive grounds such as artificial grass. The mechanical compression of the latex during the production process significantly boosts its durability and abrasion resistance, while guaranteeing reliable grip.

PRO

Pro foams denote highly performing palm foams that ensure professional grip.

Pro Grip

ADVANCED

Advanced foams guarantee a very good and advanced grip also suitable for professional and competitive usage.

Advanced Grip

INTERMEDIATE

Intermediate palm foams deliver a very reliable grip that stands up to intermediate competition levels.

Reliable Grip

RECREATIONAL

Recreational foams deliver very good performances in terms of durability.

Reliable Durability

DURABILITY Boost

CUT

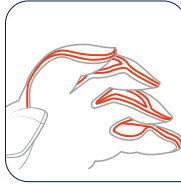

Evolution Negative Cut

The latex is rolled around the fingertips for a tight fit, best ball control and maximized contact area. An inner-seam construction in the lower finger parts offers a tight, soft, flexible and ergonomic fit.

Evolution Cut

The latex is seamlessly rolled around the fingertips for a precise fit, best ball control and maximized latex-to-ball contact area. An outer-seam construction in the lower finger parts offers an ergonomic fit, breathability, softness and flexibility.

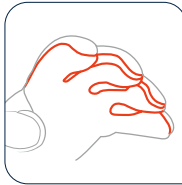

Expanse Cut

Outer seams enlarge the palm surface of this flat cut and so increase the latex-to-ball contact area.

Negative Cut

The backhand and palm of the glove are negative stitched with gussets and side-walls. Besides offering a smooth look, this specific design guarantees a snug fit and enhances ball control, delivering a natural feel to the keeper's hand.

Hybrid Negative Cut

Negative construction with one single gusset and wrapped latex around the index finger and the pinkie for best ball control.

CUFF & CLOSURE

Steady Cuff

In order to stabilize the wrist and provide the highest possible wearing comfort, we extended the neoprene backhand all the way to the opening and merged it with a highly elastic textile on the inner wrist side.

Elastic Cuff

This well-proven closure based on highly elastic textile guarantees great fit and additional wrist support.

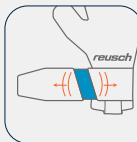

Open Cuff

A vertical cut on the inner side of the cuff makes entering the glove as easy as never before.

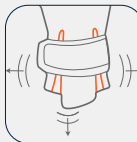

Full Strap

Our tried and tested fastening system all around the wrist for maximum stability and comfort.

Elastic Strap

Premium strap consisting of two pieces that are connected by a highly elastic textile insert. This special material-mix guarantees a highly precise and stable fastening.

Adaptive Flex-Closure System

A two-layer construction consisting of a first elastic bandage around the wrist and a second layer resulting from an extension of the neoprene backhand all the way to the opening. To provide flexibility, the neoprene is strategically cut on the back and the front of the wrist. This system stabilizes and supports the wrist while enhancing freedom of movement.

FEATURES

Freegel

Extremely light and durable punching zone made of silicone-like material, resulting in a very robust and at the same time highly flexible backhand.

Preshaped Construction

The anatomical shape of the glove and the slightly spread fingers enhance the glove's wearing comfort and support a natural catching position.

Duraguard

This latex patch offers extra abrasion resistance and durability in the most stressed zone of the palm.

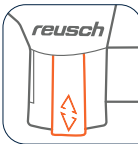

Ventilation Channels

Strategically placed small holes in the latex gussets guarantee constant ventilation and cool hands.

Airventsistem

Highly breathable mesh material ensures optimum air circulation within the glove, providing maximum ventilation.

Pull Loop

A slim textile loop on the inner side of the cuff ensures an easy entry into the glove.

Thumbflex

A cut in the palm latex between thumb and index finger optimizes the flexibility of the thumb and the ergonomic shape of the glove.

3D Thumb Crotch

This rolled crotch construction between thumb and index finger avoids bothering seams and supports an ergonomic fit.

Side Wrap

A slightly wrapped construction of the palm latex on the outer side of the hand provides a snug fit and a bigger catching area.

Thumb Wrap

The palm latex wraps around the thumb to enlarge the grip area and create an ergonomic shape.

Ortho-Tec

Based on five individually removable, lightweight and highly bendable protection spines, the Reusch exclusive Ortho-Tec™system adapts to the natural movements of the fingers and blocks them before being pushed backwards into the injury zone.

Finger Support

This reliable finger protection system based on five protection spines reduces the risk of hyperextension while keeping the glove soft and flexible.

Removable Finger Support

This finger protection system with five individually removable protection spines reduces the risk of hyperextension while keeping the glove soft and flexible. A stretchable opening on the backhand of the glove allows a quick and individual removal of each spine.

Attrakt RE:GRIP 54 70 555

Thanks to an **innovative 2-Layer Latex System**, the new Re:Grip technology combines two different latex qualities to guarantee ultimate grip without compromising on durability. The top layer is based on a latex composition, that is beloved by professional goalkeepers because it ensures world-class grip. The bottom layer features our highly abrasion resistant Infinity latex. Once the first layer is consumed, the durable layer of Infinity latex enables the goalkeeper to keep using the glove during matches or training sessions.

THE MOST
RELIABLE ALLY
DURING THE
HOTTEST
GAMES!

Thanks to a special Outlast® Thermo-Material, the Reusch Gold X Airvent keeps the hands cool during the toughest games. The newly introduced Outlast® technology manages to absorb the excess heat and greatly reduces the formation of sweat.

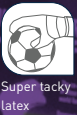

COOLMESH

To keep you cool during the hottest phases of the match, Attrakt Infinity Airvent is based on our coolmesh, which is a lighter and more breathable mesh version, specially developed for those hot summer days on the pitch.

LEVEL UP
YOUR GAME

with the Reusch Goalkeeping Apparel Collection – a range of high-quality goalkeeper clothing that is designed to provide intelligent protection, modern fits, and durable materials.

The collection features an updated range of functional goalkeeper underwear, including must-have padded apparel pieces and highly functional unpadded first layers. Get ready to experience the ultimate in comfort and performance with the Reusch Goalkeeper Apparel Line.

100% RECYCLED
POLYESTER

As one of the leaders in the goal-keeping industry, we are committed to reduce our environmental impact by using recycled polyester to produce our baselayers' collection. Recycled polyester is a more sustainable option rather than regular polyester since its production requires fewer resources and therefore generates fewer CO2 emissions. The products made of recycled polyester are marked with the icon above.

7 STEPS TO TREAT GOALKEEPER GLOVES RIGHT

As highly technological and delicate products, goalkeeper gloves deserve and need special attention. Following some basic rules when choosing, playing, cleaning and storing the gloves will help maximizing their performance and durability.

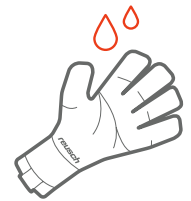

01. CHOOSE THE RIGHT GLOVES FOR YOUR NEEDS

- Take the gloves that are made for the type of surface you regularly play on and the weather conditions you will face the most.
- Select the palm foam that best corresponds to your needs. Even though all Reusch palms are made of high-quality materials, they differ in terms of grip, cushioning and durability, depending on the material composition of the foam.
- Check the additional features of the glove that can help you improving your performance.
- Decide whether you want finger protection or not.
- Choose your preferred cut.
- Pick the right size.

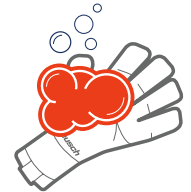

02. WASH BEFORE FIRST USE

- Never forget about this! In order to eliminate any remaining soap necessarily used in the production process, the gloves must be cleaned with warm water before first using them.
- Only after this procedure the gloves attain their fullest grip properties.

03. MOISTEN BEFORE PLAYING

- Rinse Aqua gloves with warm water (preferably between 35–40°C) one to two hours before using them, in order to activate the Hydrograins™ inside the palm foam.
- Moisten all types of goalkeeper gloves before playing.
- Keep the gloves in slightly wet condition during use.

04. CLEAN AFTER PLAYING

- Wash the gloves with warm water (around 35°C) after playing in order to eliminate dirt that decreases the grip properties of the gloves.
- Do not use aggressive solvents or harsh cleaners.
- Wash by hand and not in the washing machine.
- For a perfectly clean glove, additionally use special glove wash.

05. DRY AT ROOM TEMPERATURE

- Let the gloves dry at room temperature.
- Keep away from radiators or other sources of direct heat, which would deteriorate the latex.

06. STORE IN APPROPRIATE LOCATION

- Do not expose gloves to UV radiation like intense sunlight or light from fluorescent tubes, as this can impair the grip and durability of the latex layer.
- Store the gloves in a cool, dark and dry place.
- Goalie bags are the perfect storage items for your gloves.

07. USE UNTIL COMPLETELY WORN-OUT

- Very soft palm foams can show first signs of usage already after a small period of use.
- The performance and the grip properties of the glove remain untouched until the palm is totally worn out.

OUR SERVICE B2B PORTAL IS AN ONLINE SHOP FOR BUSINESS CUSTOMERS.

Unlike telephone, e-mail or fax orders, the platform immediately offers an availability overview. The system is connected to our ERP system and is updated every 15 minutes. Any dealer with an active access can order around the clock.

WHY SHOULD YOU USE OUR SERVICE PORTAL?

- Order at any time of day or night, regardless of your or our office hours.
- Simple overview of the available sizes and colours Modern, simple and fast processing - no waiting times on the phone.
- Print option and electronic archiving of all orders.

GET YOUR ACCESS NOW:

Either contact your field representative (service@reusch.com), or request access directly through <https://b2b.reusch.com>. You will receive your access data within 24 hours.

<https://b2b.reusch.com>

VIRTUALSHOWROOM

With the developed Reusch Virtual Showroom we provide our partners with maximum content and all needed assets of our goalkeeping collection GK 24. The platform offers details, pictures and descriptions of each single article as well as product and information videos, key campaign visuals and a download section including presentations, catalogues and simply all relevant documents for clients, sales force and business partners.
